

Security and Defence Research Team

Permanent members from the Security and Defense Research Team

The permanent members of the **Security and Defense - Intelligence, Criminology, Crises, Cyberthreats** team (**SDRT-I3C**) are composed of a group of **twelve professors-researchers**. Attached to the Cnam's **Security and Defense Department (SDD-I3C)**, this **multidisciplinary** team puts **transversality** at the heart of its scientific collaborations and research approach, thus contributing to the constitution of a **strategic** and **prospective global vision of contemporary and future defense and security issues**.
